TELU RAVI SAI KUMAR

EXPERIENCE

Trading Team Head And Front End Developer at ApheX (StartUp)

- Led a high-performing team to create an intuitive user friendly trading platform
- Proactively collected and integrated real-time data from NSE into our website, seamlessly incorporating our innovative features.
- By analyzing user feedback and market trends, implemented enhancements that led to increase in user engagement(July 2022-March 2023)

PROJECTS

BLOGGING WEBSITE USING REACT JS AND FIREBASE

- Developed a dynamic blogging website using React and Firebase.
- Enabled users to read posts without login, while requiring Google authentication for post creation.
- Implemented an intuitive React-based interface and integrated Firebase for secure user authentication and real-time database functionality, resulting in a seamless and engaging user experience.

TO DO LIST APP USING JAVASCRIPT AND FIREBASE

- Developed a To-Do List application to streamline task management and enhance productivity. Leveraged a full-stack approach with HTML5, CSS3, JavaScript for the front-end, and FireBase for the back-end. Implemented features for task addition and deletion, ensuring a responsive and interactive user experience.
